TAKI SADIK

IT Professional · Security | Networks | Systems | Cloud | SOC

North York, ON · 437-878-0011 · taki@tyfsadik.org · LinkedIn · tyfsadik.org

PROFESSIONAL SUMMARY

Versatile IT professional currently completing a Cybersecurity diploma at Seneca Polytechnic, with hands-on experience across incident management, server operations, network analysis, and security monitoring. Holds active security clearances, multiple industry certifications, and a strong self-built homelab demonstrating practical skills in Linux administration, cloud infrastructure, DNS, virtualization, and AI deployment. Seeking a challenging IT role in SOC analysis, incident response, network operations, IT support, or data centre environments.

TECHNICAL SKILLS

Security & SOC: SIEM (Splunk, AlienVault), threat intelligence, incident triage, digital forensics (live/dead box), CCTV/IP surveillance, vulnerability management, OPSWAT ICIP, MasterCard Cybersecurity framework

Networking: TCP/IP, VLANs, firewalls, routing & switching (CCNA in progress), WLAN/Wi-Fi 802.11, SDN, Cisco IOS, APNIC Routing, LAN/WAN design, DNS (Pi-hole + Unbound)

Systems & Servers: Linux (Ubuntu, RHEL), Windows Server (AD, DHCP, DNS), Proxmox, VMware, Hyper-V, VirtualBox, Docker, server monitoring, backups, patch management

Cloud & Virtualization: Azure (AZ-900 certified), AWS (Cloud Practitioner + Security), Nextcloud, self-hosted infrastructure, hybrid cloud environments

Databases: SQL, MySQL, PostgreSQL, MS SQL Server, cloud database deployment (Azure)

Programming & Scripting: Python, Bash, PHP, JavaScript, Rust, Splunk SPL — automation of OS deployment, network config, and security workflows

Tools & Platforms: Git, GDB, Make, Visual Studio, Eclipse, AJAX, Docker, SMTP, web hosting, AI model training & deployment

WORK EXPERIENCE

Incident Analyst | Shield Security Systems — *Nov 2025 – Present · Torreon Metro Area, ON · On-site*

- Monitor security systems and databases, triaging alerts and escalating events per defined SOPs.
- Perform ongoing threat assessments and vulnerability analysis using industry tools and databases.
- Coordinate with stakeholders to document and resolve security incidents, maintaining detailed logs.
- Apply SEO and digital analytics skills to support threat intelligence reporting and data aggregation.

Network Analyst Intern | CardiOCare — *Jan 2025 – Sep 2025 · Greater Toronto Area · Hybrid*

- Monitored and maintained network infrastructure, identifying and resolving connectivity and performance issues.
- Assisted with network documentation, topology diagrams, and capacity planning.
- Performed packet analysis and traffic monitoring to detect anomalies and support incident investigations.
- Supported deployment and configuration of network hardware and cloud-connected devices.

Server Operator (Junior) | Fiera Foods — *Jun 2024 – Jul 2025 · North York, ON · On-site*

- Managed server alerts and system issues with priority-based response, maintaining first-time fix rates to minimize service disruption.
- Performed daily maintenance including backup verification, system updates, patch application, and performance monitoring.
- Leveraged SQL and cloud computing skills to support data workflows and reporting systems.
- Documented recurring issues and contributed to runbook development for the operations team.

Customer Service Specialist | H&M — *Jul 2025 – Present · North York, ON · On-site*

- Troubleshot and resolved customer issues related to orders, payments, and accounts; escalated complex cases to internal teams using CRM tools.
- Leveraged AWS-backed retail systems and internal network services to access customer data and process resolutions efficiently.
- Coordinated with cross-functional teams to ensure timely problem resolution and positive customer outcomes.
- Applied administrative systems knowledge to manage workflows, track cases, and maintain service quality metrics.

Surveillance Operator | Elite Force — *Sep 2022 – Nov 2023 · Dhaka, Bangladesh · Hybrid*

- Monitored multi-camera CCTV and IP surveillance systems across commercial facilities, ensuring 24/7 security coverage.
- Detected and reported suspicious activity, coordinating with on-ground security teams for rapid response.
- Maintained surveillance logs and generated shift incident reports for management review.

HOMELAB & PERSONAL PROJECTS

- **Private AI Model:** Trained and self-hosted a private AI model with integrated web search capabilities (2026). (ai.tyfsadik.org)
- **Proxmox Homelab:** Built a full Proxmox virtualization infrastructure for testing servers, VMs, and network configurations (2025). (It's online too but secret)
- **Self-Hosted DNS:** Deployed Pi-hole + Unbound recursive DNS server for network-level ad/threat blocking (2025). (from Home)
- **Private Email Server:** Configured and secured a self-hosted SMTP mail server with custom domain (2025). (tyfsadik.org)
- **Self-Hosted Cloud Storage:** Deployed Nextcloud instance for private file storage and collaboration (2025). (cloud.tyfsadik.org)
- **Self-Hosted Photo Server:** Deployed and managed a personal photo management server (2025). (photo.tyfsadik.org)
- **Public Search Engine:** Built and hosted a public-facing search engine with custom indexing (2024). (search.tyfsadik.org)
- **Public Wiki Server:** Built and hosted a public-facing full Wikipedia server for restricted countries (2024). (wiki.tyfsadik.org)

EDUCATION

Diploma — Computer Networking & Cybersecurity (Information Analysis) *Expected 2026*

Seneca Polytechnic, Toronto, ON

Relevant Coursework: Security Incident Response · Open Systems Administration · Software Defined Networks · Wireless Networks · Databases · Microsoft Cloud Technologies (Azure) · Linux Administration · Static & Dynamic Networks · Computer Systems Projects (On-Prem & Cloud)

A+ Certified Professional Course *2024*

Scarborough Training Centre, Toronto, ON

CERTIFICATIONS & LICENCES

- **Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft** *(Active)*
- **AWS Academy Graduate — Cloud Security — Amazon Web Services** *(Nov 2025)*
- **AWS Cloud Practitioner — Amazon Web Services** *(Active)*
- **OPSWAT Certified Information Professional (CIP) — OPSWAT Academy** *(Mar 2026 · exp. Feb 2027)*
- **OPSWAT Introduction to Critical Infrastructure Protection (ICIP) — OPSWAT** *(Mar 2026 · exp. Mar 2027)*
- **MasterCard Cybersecurity Virtual Experience — Forage** *(Mar 2026)*
- **EASY Framework for Threat Intelligence — AttackIQ** *(Mar 2026)*
- **Introduction to Model Context Protocol — Anthropic** *(Mar 2026)*
- **Cisco Routing Course — APNIC Academy** *(Mar 2026 · exp. Mar 2029)*
- **MSSQL Certification — Microsoft** *(Active)*
- **ISC2 Candidate (CC) — ISC2** *(Aug 2025 · exp. Aug 2026)*
- **CompTIA Security+ (In Progress) — CompTIA**
- **CompTIA A+ (In Progress) — CompTIA**
- **CCNA Fundamentals (In Progress) — Cisco Networking Academy**
- **Ontario Security Guard Licence — Private Security & Investigator Center | #50059604** *(Active)*
- **Smart Serve Ontario — Smart Serve Ontario | #240328413205** *(exp. Mar 2029)*
- **First Aid & CPR Certified** — *(Active)*
